

Antean Technology is a **woman-owned small** cyber and IT firm, deeply rooted in the design, development, and implementation of cybersecurity solutions. Antean's thorough understanding of cyber risk management as it relates to the system development lifecycle (SDLC) allows us to quickly navigate through the nuances and challenges of organizations to provide bespoke cyber solutions that ensure our clients maintain **end-to-end cyber compliance**.

FEATURED CLIENTS

DIFFERENTIATORS

- Antean's "**Born Secure**" process helps our clients reduce the technical knowledge, cost, time, and resource constraints that keep them up at night by minimizing cyber risk, maintaining system security, and protecting their data.
- Quality and resources of a large business with the agility and transparency of a small business.
