BUILT TO SERVE. CERTIFIED TO DELIVER. READY FOR YOUR MISSION.

Corporate Overview

Antean Technology delivers mission first cybersecurity, cloud, and emerging technology solutions that protect and advance critical operations across defense, civilian, and healthcare sectors. From Security Control Assessments and Zero Trust Architecture to AI governance and FedRAMP readiness, we support mission critical work across Federal agencies – empowering clients with the insights to make cost effective, security first business decisions.

We fuse innovation, agility, and trust to enable secure digital transformation at speed and scale. With quality in mind (we are ISO 9001, 20000, 27001 certified), we bring a decade of proven prime and subcontractor experience - trusted to accelerate secure IT modernization, reduce enterprise risk, and drive resilience in complex environments.

Corporate Snapshot

- SBA 8(a) Certified through May 2030
  - SBA BOS: Joshua Howk

    8aFresno@sba.gov
- SBA Certified EDWOSB/WOSB
- NMSDC MBE Certified
- SWaM Certified
- VDOT DBE Certified

- **UEI:** K2ZEQM1YTTV3
- **DUNS:** 080011379
- **CAGE:** 7HPX4
- **ISO:** 9001:2015, 20000-1:2018, 27001:2022 Certified

Certifications

- Industry-leading and DoD-M aligned certifications held across Team Antean: CISSP, CDPSE, CEH, CISA, CCNA, CISM, CASP, Security+, ITIL, PMP
- DoD 8570.01-M compliant staff: IAT Level II/III

- Cloud and FedRAMP credentials: AWS, Azure, Google Cloud Certified Practitioners, FedRAMP experienced professionals
- CISA AES HVA and RVA Qualified

Differentiators

- Trusted Cyber Partner – CISA AES HVA and RVA Qualified
- Born Secure Methodology
- Creative, Cost Effective, and Sustainable Solutions
- Hybrid Cyber SMEs
- Cleared and DoD Certified Staff

- Agile Small Business with Large Business Capabilities
- Proven Track Record
  - Diverse Federal Client Base
  - Prime and Subcontractor Past Performance
  - Exceptional CPARS

Core Capabilities

Cybersecurity:
- Governance, Risk, and Compliance
- Continuous Monitoring and Ongoing Authorization
- Incident Response, Disaster Recovery, and Contingency Planning
- Application Security
- Audit, Assessment, and Testing
  - High Value Assessments
  - Assessment and Authorization
  - Risk and Vulnerability Assessments
  - Penetration Testing
- Threat and Vulnerability Management
- Cybersecurity Framework
- Cyber/Privacy Program Strategy and Operations
- Zero Trust Program Development
- DevSecOps, and CI/CD Security
- Cyber-Supply Chain Risk Management
- GRC Tools (eMASS, CSAM, Xacta, Archer)

Cloud and Infrastructure
- FedRAMP Readiness
- Secure Multi-Cloud Migration
- Cloud Governance
- Cloud Security Engineering

AI and Machine Learning
- AI Governance
- AI RMF
- Secure Agentic AI

SELECT PAST PERFORMANCE

Centers for Medicare and Medicaid Services (CMS)

Antean conducts security control assessments (SCAs), penetration tests, and ACTs for CMS Office of Financial Management. We deliver detailed reviews of low- to high-risk systems, ensuring accreditation readiness, maintaining ATOs, and resolving compliance gaps through thorough analysis, planning, and execution aligned with CMS' security and risk protocols.

Defense Counterintelligence and Security Agency (DCSA)

Antean provided cybersecurity expertise to DCSA's OCIO, streamlining ATO processes, enhancing cloud system integration, and supporting Zero Trust Architecture implementation through strategic planning and roadmap execution aligned with DODCIO guidelines.

Department of Homeland Security – FEMA

Antean provides multi-cloud cybersecurity and compliance services, ISSO and ISSE support, and comprehensive risk assessments for FEMA's Cyber Security Division. Our services enhance compliance and cybersecurity posture through cloud migrations, vulnerability remediation, continuous monitoring, and development of robust authorization and risk management frameworks across AWS, Azure, and hybrid environments.

U.S. Department of Health and Human Services (HHS)

Antean supported HHS OIG's Azure cloud transition, ensuring FedRAMP and RMF compliance. Our gap assessments, policy development, incident response exercises, and technical configuration services helped establish a secure and compliant enterprise cloud infrastructure.

Department of Housing and Urban Development (HUD)

Antean delivered end-to-end support for HUD's Technical Review Sub-Committee governance and Software License Management programs. We provided systems engineering, policy development, and agile documentation, while enhancing stakeholder collaboration and compliance with federal IT and governance standards.

U.S. Department of the Navy

Antean supports the U.S. Department of the Navy's Special Access Program (SAP) ITD portfolio with network engineering, network analysis, and cybersecurity engineering services. Our team contributes to the modernization, optimization, and defense of secure IT systems, improving readiness and IT operational performance across multiple classifications from Unclassified to Top Secret SAR.

National Institutes of Health (NIH)

Antean supports cybersecurity governance for NIH's Clinical Center, providing risk management, SOP development, and framework execution to enable a mature and compliant cybersecurity program for critical healthcare systems.
